

Principle FIVE P5

Reviving Co-operative Culture
September 2017

Dennis Chambers, one of Principle 5's founding directors with an award presented to him by his local community at Westfield for going "Above And Beyond." He is pioneering a gardening project as a first step towards building up local resilience and collective self-help in the face of the growing crisis of climate chaos. Dennis has already started to develop plots for the production of food, to grow flowers and to cultivate a sense of pride in the neighbourhood. The award was presented by Lord Mayor Anne Murphy at the Westfield Gala.
