Indexing Co-operative News

Yingjia Cao (Jade) Sheffield University postgraduate student (information systems) is helping us to develop a searchable index of the back editions of Co-operative News. The Principle 5 collection goes back to 1997. This is a huge task and will take a long time. But as it progresses, it will be continually added to our website. Co-operative News was indexed from its first edition in 1871 until 1918. We have access to that index through the National Co-operative Archive which holds every edition of Co-operative news.
